PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with over 4 years of experience designing, developing, and maintaining scalable web and mobile applications. Strong background in Java, .NET, Node.js, React, React Native, and cloud-native architectures. Experienced in microservices, CI/CD, automated testing, SQL/NoSQL databases, and software engineering best practices. Passionate about clean code, SOLID principles, system scalability, and integrating Artificial Intelligence solutions into real-world products. Currently pursuing opportunities in Software Engineering, Backend Development, Full Stack Development, and Applied AI.

TECHNICAL SKILLS

Programming Languages: Java, C#, JavaScript, TypeScript, Python

Backend: Spring, .NET, ASP.NET Core, Node.js, NestJS, Express

Frontend: React, NextJS

Mobile: React Native

Databases: SQL, MySQL, Oracle Database, MongoDB, NoSQL

Testing: Unit Testing, MSTest, Cypress

DevOps & Tools: Git, Azure DevOps, CI/CD Pipelines, Jira

Architecture: Microservices, REST APIs, Clean Code, SOLID, Design Patterns

PROFESSIONAL EXPERIENCE

Datum – Senior System Software Engineer | Jun 2025 – Present

- Develop scalable full-stack applications using Java, .NET, Node.js, React, and React Native.
- Design, implement, and maintain RESTful APIs and distributed services.
- Integrate machine learning models and AI-driven features into production environments.
- Optimize SQL and NoSQL database performance and data models.
- Implement automated testing strategies using unit tests and Cypress.
- Collaborate with product managers, designers, and engineering teams in agile environments.
- Improve application performance, scalability, and maintainability through engineering best practices.

Instituto de Pesquisas Eldorado – Software Engineer | May 2021 – Jun 2025

- Developed microservices using Node.js and .NET (C#).
- Built responsive web applications with React and mobile applications with Flutter.
- Designed and maintained MongoDB and Oracle Database solutions.
- Worked in Scrum and Kanban environments using Azure DevOps and Jira.
- Created and maintained CI/CD pipelines to support continuous delivery.
- Participated in architecture discussions and software quality initiatives.

QI Faculdade & Escola Técnica – Computer Science Instructor | Mar 2024 – Dec 2024

- Delivered theoretical and hands-on technical classes for Computer Science students.
- Developed educational materials and practical learning activities.
- Mentored students on software development projects.
- Assessed student performance through assignments and practical evaluations.

EDUCATION

Postgraduate Degree in Cross-Platform Mobile Applications
Descomplica | 2023

Associate Degree in Systems Analysis and Development
University of Marília (UNIMAR) | 2020 – 2023

CERTIFICATIONS

- TDC Future 2021 – API Development
- SQL Foundation
- .NET Core 3.1 / .NET 5 API Development
- SOLID Principles with C#

AWARDS & RECOGNITION

- PEEC – Eldorado Excellence Contribution Award

LANGUAGES

- English – Professional Working Proficiency
- Portuguese – Native
